Visit us at Booth #625!

NSL will be featuring some fantastic products at Lightfair:

Task Star Pro

LED Task Star Pro (LTSPRO) is constructed with aluminum housing and a matte white polycarbonate diffuser. It has a hi-low rocker switch and a slide selector switch for changing Kelvin colour temperature. This sleek fixture features edge lit technology which means no hot spots on the polished marble or granite counter top. 1 inch low profile design means the fixture remains hidden. The quality of light is the best in the industry with a 90 color rendering index (CRI) and up to 60 lumens per watt. Rated to 50,000 hours and dimmable with most ELV dimmers, LTSPRO is the most versatile task light on the market today. Ships complete with captive mounting screws, cord and plug, end to end connector and romex connector for hardwire.

Switchex

SWITCHEX simplifies LED array lighting systems by combining an inwall LED dimmer switch and power supply into a single integrated unit. SWITCHEX mounts in a standard in-wall switch box, accepts 120V AC and converts to low voltage DC. SWITCHEX is compatible with 2-channel 12V and 24VDC tape light and constant voltage fixtures.
